English Football.

In the second round of the English Association Cup competition, Tottenham Hotspur defeated Bury (last year's holders). The other survivors of the round are—Wolverhampton Wanderers, West Bromwich Albion, Middlesbrough, Reading, Small Heath, Sheffield United, Aston Villa and Notts Forest drew.

Another Explosion at Nanking.

It has been ascertained that in the recent explosion at Nanking, no less than 600,000 lbs. or nearly 300 tons, of powder were consumed, which was stored in 38 separate rooms in the magazine. A hole forty feet deep was made in the ground where the magazine stood, and not even a scrap of wood was found to tell that there had ever been a magazine there.

General E. G. Barrow.

A Calcutta telegram, dated March 14, says:—Brigadier-General E. G. Barrow has been appointed to succeed Major-General P. J. Maitland, Secretary to Government in Military Department, and will in all probability take up his appointment early in autumn. General Barrow was first Colonel of the Hongkong Regiment.

Sad Fatality at Shanghai.

The N.-O. Daily News of the 25th inst. reports:—A sad accident occurred on Saturday night at the C. M. Central Wharf by which Captain George Graham lost his life. It seems that the deceased gentleman whilst going on board his tug-boat missed his footing and fell into the water. Captain McCracken, who had just left him, on hearing his cry for help, rushed back and succeeded in rescuing him, but, though Captain Graham spoke, he shortly afterwards succumbed owing probably to the shock of the immersion.

Presentation at Kowloon.

A very enjoyable evening was spent yesterday at the Kowloon Hotel, when the friends of Mr. C. Sinclair, of the Siege Train, met to give him a rousing send-off, the occasion being his approaching return to active service in South Africa. During his short stay in Hongkong, Mr. Sinclair has earned golden opinions among the supporters of 'the fancy' as a rattling good all-round sport. In presenting the guest of the evening with a handsome gold watch and chain, Mr. W. Muskett, who presided, remarked that, not content with assisting in the founding of the Cronje at Paardeburg, Mr. Sinclair, during his residence in the Colony, had industriously set himself the task of teaching all and sundry how to knock corners off each other. Covers were laid for twenty-one guests, and all present had a high old time.

The Indian Census.

The final census returns show that the population of India, including the Native States, has risen since 1891 from 287,317,948 to 294,266,701, or 2.42 per cent. Deducting for the purpose of a comparison of the population, the tracts now enumerated for the first time, the proportionate increase during the ten years is brought down to 4,283,069, or 1.42 per cent., compared with 11.2, the actual rate of increase between 1881 and 1891. This is mainly due to the figures of the Native States, which have fallen from 65,050,479 in 1891 to 63,181,569 in 1901, a decrease of 4.34 per cent. The statistics reflect the vicissitudes of the period to which they relate. It is as yet premature to conjecture how far the decline in particular tracts is due to enhanced mortality and impaired fertility or to emigration.

Delicate Children often need some strong tonic, even if they are not suffering from any well-defined disease. Prevention is better than cure, and by the use of a good tonic when a child begins to get fretful, peevish and run down, serious illness may often be avoided. Nothing equals Cod Liver Oil for cases of this kind. It is undoubtedly the best reconstructive tonic known to the medical profession to-day, and it is not for its extremely unpleasant taste it would be much more generally used.

It will be welcome news to many an anxious mother to learn that one of the fruits of modern scientific research is the discovery of a method of combining the curative virtues of Cod Liver Oil in the form of a pleasant wine. The preparation known as

'Stearns' Wine of Cod Liver Oil' is a pleasant, palatable nutrient tonic which contains a powerful germicide and is a most effective means of restoring vitality to the system.
